## Installation of cylinder head gasket

# Rover

## K-series

### 1,1 ltr. – 1,8 ltr.

# 167.411

In order to ensure perfect sealing, the supplied metallic centering sleeve must be fitted before placing the cylinder head gasket. Protrusion: max. 10 -11 mm. Care should be taken to avoid damaging the sealing surfaces. Used centering sleeves or plastic centering sleeves must not be reused.
